CLOUD INFRASTRUCTURE • CI/CD • AUTOMATION • SECURE DEPLOYMENT

PROFESSIONAL SUMMARY

DevSecOps and Cloud Engineering professional with hands-on experience designing cloud infrastructure, automating deployments, building CI/CD pipelines, containerizing applications, and developing responsive web solutions. Experienced with AWS, Terraform, Docker, Jenkins, GitHub, GitHub Actions, Ansible, Kubernetes, Python, HTML, CSS and JavaScript, with a strong focus on automation, reliability, scalability and secure deployment practices.

CORE COMPETENCIES

Cloud & Infrastructure

AWS • EC2 • VPC • S3 • RDS • IAM • Load Balancing • Auto Scaling

Infrastructure as Code

Terraform • Ansible • Infrastructure Provisioning • Configuration Management

Development

Python • JavaScript • HTML5 • CSS3 • Responsive Web Development • REST/API Fundamentals

DevSecOps & CI/CD

Jenkins • GitHub Actions • Git • Secure CI/CD • Pipeline Automation

Containers

Docker • Docker Compose • Kubernetes • Minikube

Tools & Platforms

Linux • macOS • GitHub • VS Code • Docker Desktop • Nginx

SELECTED PROJECTS

AWS Scalable Cloud Infrastructure

Terraform • AWS • EC2 • VPC • ALB • Auto Scaling • RDS

- Designed and deployed scalable AWS infrastructure using Terraform Infrastructure as Code.
- Configured VPC networking, EC2 application infrastructure, Application Load Balancing, Auto Scaling and RDS.
- Troubleshoot subnet, networking, load-balancing and database infrastructure issues.
- Created repeatable infrastructure provisioning workflows and documented the project for portfolio presentation.

Jenkins & Docker CI/CD Pipeline

Jenkins • Docker • GitHub • Git • CI/CD

- Built an automated CI/CD workflow connecting GitHub repositories with Jenkins and Docker.
- Automated application checkout and containerized deployment.
- Configured and tested Docker-based deployments and resolved Jenkins, Git and Docker integration issues.

Multi-Container Docker Deployment

Docker • Docker Compose • Nginx • Linux

- Containerized a multi-service web application using Docker and Docker Compose.
- Configured services, networking and Nginx-based web serving for a reproducible deployment environment.

Business Website Development

HTML • CSS • JavaScript • Web3Forms • SEO

- Designed and developed responsive websites for TradCloud, TAMP Consulting and TAMP Education.
- Implemented contact forms, newsletter subscriptions, WhatsApp integration, SEO metadata, social links, responsive layouts and custom 404 pages.
- TAMP CONSULTING WEBSITE: <https://tampconsulting.space>
- TAMP EDUCATION WEBSITE: <https://education.tampconsulting.space>

PRACTICAL DEVSECOPS FOCUS

My engineering approach covers the application delivery lifecycle: Code → Git/GitHub → CI/CD → Security → Containers → Infrastructure as Code → AWS Deployment → Monitoring & Maintenance.

PROFESSIONAL STRENGTHS

- Problem solving and systematic troubleshooting.
- Automation-first approach to repetitive engineering tasks.
- Continuous learning across cloud engineering, DevSecOps, Kubernetes and infrastructure automation.
- Business-focused implementation with emphasis on reliability, scalability and efficiency.

PROFESSIONAL DEVELOPMENT

Current focus: DevSecOps Engineering, Kubernetes, advanced AWS, GitHub Actions, Ansible, cloud security, CI/CD security, container security, monitoring and observability.

EDUCATION

BSc. Biotechnology

University of Benin • 2013

CERTIFICATIONS

AWS Certified Cloud Practitioner — Amazon Web Services(AWS)

Associate Chartered Management License— Nigerian Institute of Management(NIMC)

Associate Chartered Human Resource Practitioners License— Chartered Institute of Personnel Management(CIPM)
